

The easy-to-use, web-based BanQu platform will make the processes in the glass recycling value chain more transparent, efficient and equitable.

Seller presents recycled glass to buyer.

Refer to the Recycling **Guide** for information on what glass is acceptable for recycling.

From here, buyer manages the transaction on the BanQu platform (banqu.co) via cell phone.

Buyer enters transactional informatic including of glass.

SUBMIT

Buyer submits transaction.

PAYMENT RECEIVED

Cashless payment - seller receives SMS notification of payment into kasiCASH account.

Glass weighed and quality assessed by buyer.

Buyer logs in and selects seller on BanQu.

Buyer

Seller

Seller not registered: Buyer sends seller a link via SMS directly from BanQu, seller accepts and buyer creates seller's profile on BanQu.

Seller is registered but not connected to buyer: If buyer and seller have not transacted on BanQu before, buyer needs to send SMS to seller via BanQu to connect for transactions.

Seller receives notification of transaction via SMS (can raise query if not satisfied).
